

Glossary of reports

- The **Working Group for Healthcare Innovation** will provide recommendations to establish a global health spending cap for Rhode Island, tie 80% of healthcare payments to quality by 2018, develop a next-generation health information technology system for all payers, and establish performance management frameworks to achieve population health and wellness goals. Additional details and the Executive Order are available at <http://governor.ri.gov/initiatives/healthcare/>
- The **Milbank Report** on state models to address health care costs details the varied approaches taken in this area by Maryland, Massachusetts, Oregon, and Vermont. The report is available at <http://www.milbank.org/publications/milbank-reports/330-state-models-for-health-care-cost-measurement-a-policy-and-operational-framework>
- The **Health Care Planning and Accountability Advisory Council**, established by statute has focused on a number of issues relevant to the Working Group's goals. HCPAAC has released a primary care study and a hospital capacity study. We will be discussing the behavioral health and total cost of care studies when they are released later in the process
 - The **primary care study** is available at <http://health.ri.gov/materialbyothers/RICoordinatedHealthPlanningProject.pdf>
 - The **hospital capacity study** is available at <http://health.ri.gov/materialbyothers/HealthCarePlanningAccountabilityAdvisoryCouncilReportToGeneralAssembly.pdf>
 - The **behavioral health** and **total cost of care studies** are in progress and should be released this fall
- **Senator Whitehouse** and a diverse group of health care leaders in the state sent a letter to Governor Raimondo before she took office outlining their vision for health reform. The letter is available at <http://www.whitehouse.senate.gov/news/release/ri-health-care-leaders-send-reform-recommendations-to-raimondo-and-general-assembly-leaders>
- The **Working Group to Reinvent Medicaid's** work focused on fostering innovation and improving Medicaid so those who need it most receive the best care at lower costs. The Group's final report, on a long-term vision for publicly-financed healthcare in the state, is available at <http://reinventingmedicaid.ri.gov/final-report/>
